Software Remote Instructions

VPN connection required if not on Purdue WiFi
Instructions for installing VPN found here:
https://www.purdue.edu/advisors/documents/connect-virtual-private-network.pdf

Citrix Workspace Version

NOTE: This version downloads software to use remote capabilities, is longer to set up but is more reliable for future use. If this does not work please proceed to the **Web Browser Light Version** instead

Figure 1

1. Visit https://www.citrix.com/downloads/workspace-app/ to download and install the **Citrix Workspace App** for the appropriate Operating System you are currently running. **NOTE:** ITaP and Krannert lab machines already have this application installed

2. After installation, restart your machine

3. Run **Citrix Workspace**, and when the application comes up (**Figure 1**), enter "**goremote.itap.purdue.edu**" for the URL (**Figure 2**), select "**Continue**" and wait for the login prompt to enter your credentials (**Figure 3**)

   a. Username: **Career Account Username**

   b. Password: **Career Account Password**

4. After the application finishes loading, select "**Apps**" at the top of the application (**Figure 4**) and then select the software you would like to use

   a. You can utilize the **"Search Icon"** at the top right of the application manually search for applications

5. After you select the application, a dropdown menu will appear where you can now select "**Open**" to open the application **Figure 4**

Web Browser Light Version

NOTE: This version utilizes the browser only, is quicker to setup and recommended if the **Citrix Workspace Version** does not work
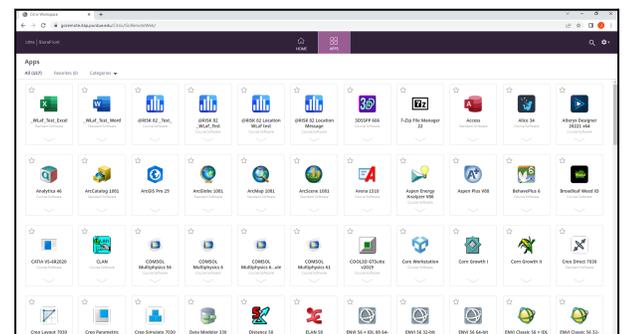

1. Visit https://goremote.boilerad.purdue.edu/

2. Fill in the correct information and select "**Log On**" as seen in (**Figure 1**)

    a. Username: **Career Account Username**

    b. Password: **Career Account Password**

    c. Domain: **boilerad**

3. Click the "**Use Light Version**" hyperlink found below the "Detect Receiver" button. **Figure 2** indicates this hyperlink with the red outline.

4. Select "**Apps**" at the top of the webpage and then select the software you would like to use (**Figure 3**)

    a. You may also utilize the **Search Icon** at the top right of the application manually search for applications

5. After you select the application, a dropdown menu will appear where you can now select "**Open**" to open the application
